Hydraulic, Pneumatic & Electrical Control Systems

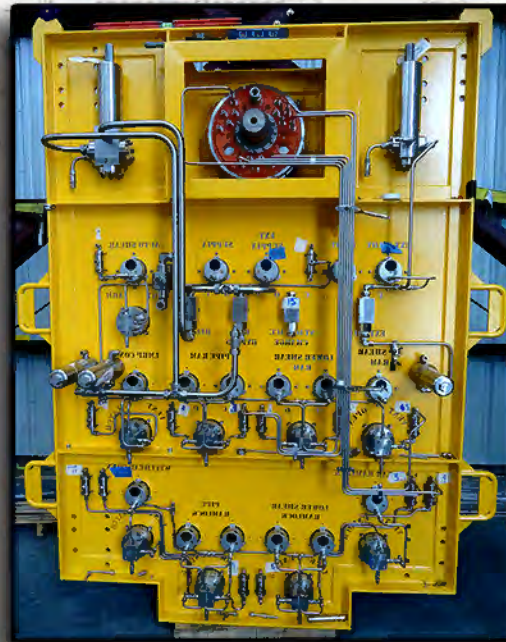

TTI Oil - 6438 Long Dr. Houston, TX 77087 - www.ttioil.com - Office 281.601.4884 - info@ttioil.com

TTI Oil, is a Texas based company that provides service to the oil and gas industry throughout most of the world. TTI provides, onshore and offshore, tubing and electrical services within the USA and abroad. TTI is always ready to face any new challenge and is available 24 hours a day, 7 days a week, 365 days a year. TTI's specialty is providing trained and qualified personnel for the design, manufacturing, assembly, and testing of oil and gas units.

**OIL & GAS CONTROL SYSTEMS AND INTEGRATIONS**

Today, TTI is a significant force in the oil and gas industry by providing the best I&E professionals to our clients. While maintaining the highest safety standards, TTI continues to provide exceptional quality and superior results.

### WIRING FOR ALL APPLICATIONS

**TTI Wire Shop:** Offers complete wiring of many control cabinets, valve control stations, choke control, PLC Systems, wiring, and many different electrical and electronic connections. This includes wiring all type of PLC's on, as well as, familiarity with touch screen and HMI. Your local TTI panel shop is ISO and UL Certified.

### CABLES AND GLAND APPLICATIONS

**TTI Cable and Glands:** We specialize in the installation and integration of various cable and gland applications. Our technicians have experience installing in hazardous and non-hazardous areas, as well as many industrial applications throughout the world. Our offering provides an installation solution for virtually every cable type used in hazardous and industrial environments including: NEC, CSA, ATEX, IEC, and other regional certifications.

### ELECTRICAL CONDUIT SYSTEMS AND INSTALLATIONS

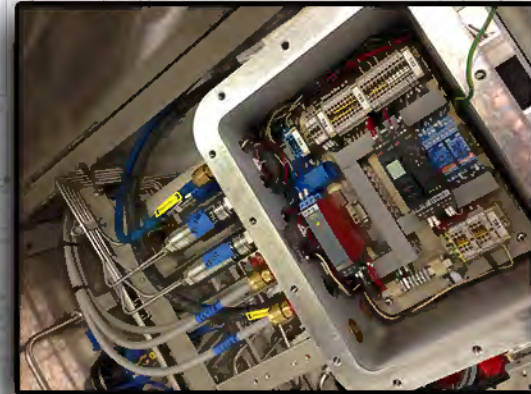

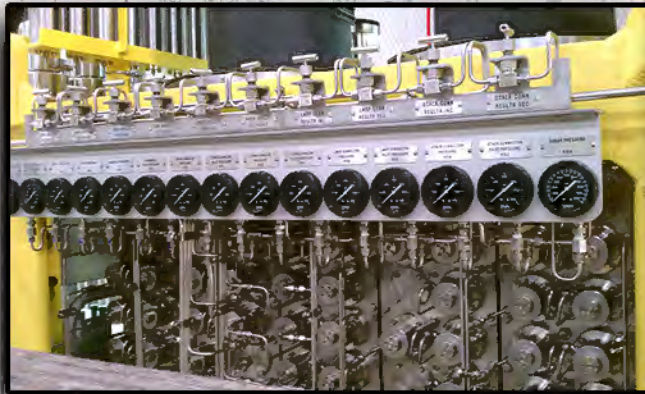

Our electricians are experienced in running conduit, mounting instruments, wiring, hook-up, testing, and commissioning. All have the ability to operate, program, analyze, and correct problems with various industrial equipment, such as, gas compressors, process units, analyzers, oil/gas separator systems, control panels, and many other units requiring electrical and electronic control systems and instruments.

## INSTRUMENTATION CONTROL SYSTEMS INTEGRATIONS

TTI offers international and domestic offshore and onshore services for trouble shooting, repair work, and new construction. TTI Oil also offers Tubing installation and integration, bending, fabrication, and installation of various instrumentation systems. TTI Oil has the capacity to turnkey manufacturing and fabrication of custom instrumentation control systems that are built to customer specifications and requirements on-site or at our facility.

## SUBSEA AND TOPSIDE INSTRUMENTATION

TTI Oil can develop and integrate a complete I&E system for your Subsea and Topside Equipment. Trust our authentic and transparent team for all of your pneumatic, hydraulic, and electrical Control needs.

TTI has installed and tested many BOP Stacks integrating tubing, pipe, hoses, and electrical controls of ranging sizes and pressures. TTI Oil can cover almost any scenario.
